Subject: The Microsoft Settlement.....

Dear Judge Kollar Kotell,

I just wanted to write you a short note to let you know how disappointed I am in how the justice department is handling the Microsoft case. I understand that the Tunney Act allows you to review the opinions of the public concerning this case.

Microsoft should not only be fined for their anti-competitiveness, but steps should be taken to ensure that no other company is overlooked (and for so long) for exercising their monopolistic power to gain an unfair advantage in the marketplace.

I would like to say that while I do like Microsoft's products and services, I feel that competition is always good for consumers.

Thank you for your time in regards to this matter.

Sincerely,
Dawn Scardina
